Enthusiastic and diligent B.Tech Computer Science student with a strong foundation in Java programming, database management, and algorithm development. Adept at problem-solving and committed to continuous learning. Looking to leverage my skills and knowledge in a dynamic and challenging environment to contribute to innovative projects and advance my career in the tech industry.

## Experience

### Intern | Software Engineering Program (Wipro)

Aug 2022 – Nov 2022

- Collaborated with cross-functional teams, including designers and product managers, to ensure seamless integration of new features.
- Worked on adding new functionalities to the company's flagship product using Java and Spring Boot, resulting in a 25% increase in user satisfaction.
- Identified, reported, and fixed bugs in the application, improving overall stability and user experience
- Attended workshops and training sessions on emerging technologies such as machine learning and cloud computing.

## Projects

### AI engine using CHATGPT API

Jan 2023 – Apr 2023

- Enabled real-time, context-aware responses
- Implemented using HTML and Tailwind CSS for development, integrated with the GPT -3 API, and utilized NLP libraries
- Successfully created an AI capable of understanding and responding to user queries effectively.

## Skills
